-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Objections

1. The numbering of claims is not in accordance with 37 CFR 1.126 which requires the original numbering of the claims to be preserved throughout the prosecution. When claims are canceled, the remaining claims must not be renumbered. When new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not).

Misnumbered claims 7 and 8 have been renumbered as claims 5 and 6, respectively.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Goldstein (US 4,272,851). Goldstein discloses a protective garment (12) for working in a hazardous environment including plural layers (16) that are impervious to liquids and gases, col. 2, lines 21-39. Further, the plural layers are not laminated to one another but are detached from one another

except for their boundaries which are bounded by seams (18), col. 2, lines 40-53 and as shown in figure 4.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 2, 5/1, 5/2, 6/1, and 6/2 are rejected under 35 U.S.C. 103(a) as being unpatentable over Goldstein in view of Malmin (US 3,863,343). Goldstein discloses the invention as set forth above except for showing the plural layered being quilted that defines spaces containing air or absorbent material therein which are bounded by seams.

Malmin discloses a protective garment that is formed of plural layers being quilted as shown in figure 1. Further, the plural layers define spaces containing air (14) or absorbent material (120) therein which are bounded by seams (13, 113) as shown in figures 2 and 5, respectively.

It would have been obvious to one skilled in the art at the time the invention was made to form plural layers of Goldstein to be quilted that defines spaces containing air or absorbent material therein which are bounded by seams as taught by Malmin as an alternative but

equivalent means of protecting the wearer of the garment from the external environment or depending on the particular end use thereof.

Allowable Subject Matter

6. Claims 3, 4, 5/3, 5/4, 6/3, and 6/4 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to Applicant's disclosure.
